1.1. **Description.** A range designed for the destruction of dudged ammunition and/or the testing of new types or quantities of explosives. This range is used by RDT&E or EOD personnel for testing or to destroy dudged ammunition by using additional high explosives or demolitions. No automation is required for this facility. Count each prepared station as one FP; if none, count one. No standard facilities are associated with this range.

1.2. A defined facility standard is not currently available for this CATCODE. By default, all requirements are user justified until a standard is established or adopted.
