

Obstacle Course. FAC: 1799

CATCODE: 179923

OPR: AF/A3S

OCR: NA

Updated 10 Apr 2023

1.1. **Description.** The obstacle course is a facility that has 10 to 15 low obstacles that must be negotiated quickly. Obstacles do not exceed four feet in height (above ground). Airmen must be able to crawl, jump, dodge, traverse, climb, vault, and balance to complete the course. Running the obstacle course challenges the airman's basic motor skills and physical condition. Obstacle courses are typically constructed from timber on a grass or earth surface. (Also, see **179921 Confidence Course** and **179922 Leadership Reaction Course**).

1.2. A defined facility standard is not currently available for this CATCode. By default, all requirements are user justified until a standard is established or adopted.
